SUBJECT: Task Order No. 03(100.762)6EP	STAT
REFERENCE: Price Analysis Summary No. 915908-C titled Tube Replacement	S∓ <del>A</del> Ŧ
Gentlemen:	
requires the use of two high resolution cathode ray tubes in its experimental Electronic Processor being developed under subject Task Order.	STAT
Consultations with the vendor,	STAT
technical representatives were advised that would purchase two the 98/71D and the 98/71Q. was the only known manufacturer of tubes which met the technical requirements at that time.	STAT STAT STAT
The two tubes purchased were received in February and incorporated into the Processor in March. Despite considerable time spent trying to adjust and optimize the tubes' performance, it was not possible to obtain sufficient light from either tube to permit adequate performance. cannot proceed on any of the experimental work on Task Order No. 03 for the High Resolution Electronic Processor without two tubes with sufficient light output.	STAT
Accordingly, submits herewith its proposal to purchase two other Ferranti tubes of lower resolution, but greater light output, to meet the Electronic Processor requirements. These tubes	STAT
Electronic Processor requirements. These tubes will be one Tube 98/2402 and one Tube 98/2404. Plus expedited delivery through U. S. Customs for a total cost of without fee. Remaining contract funds for work with the processor equipment are not sufficient to permit their use for the purchase of these tubes.	STAT
